Vishal Gupta

Senior Software Engineer | Full Stack

vishalgupta26x@gmail.com | +91-7000971726 | Ambikapur, India | GitHub | LinkedIn | vishalg.in

PROFILE

Full-stack engineer with 4+ years building web, mobile, and AI products, with deep frontend expertise in React, Next.js, Svelte, and TypeScript and backend experience in Node.js, Express.js, and Python (FastAPI) on PostgreSQL and MongoDB. Experienced in micro-frontends, real-time systems, RAG pipelines, and agentic AI development; led teams and mentored 10–15 engineers.

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer, *Binaryveda* Nov 2025 – Present | Mumbai, India

- Architected a **Svelte 5 micro-frontend** home-automation app (**Module Federation**) loading 50+ **IoT** device modules at runtime.
- Engineered a transport-agnostic **NATS** messaging layer in **TypeScript** with cloud, local, and factory adapters, enabling remote, on-site, and provisioning control of smart-home IoT devices at sub-100ms round-trips.
- Shipped web, Android, and iOS apps from one codebase via **Capacitor** native plugins, serving 5k+ users across 100+ sites.
- Established a layered architecture with **Awilix** dependency injection across 10+ modules, keeping business logic testable.
- Built a full-stack carbon-accounting platform with a **Next.js** dashboard and **Node.js** REST APIs on **PostgreSQL**, with role-based access control and paginated queries over 100k+ emission records.

vDoIT Technologies Ltd.

> **Tech Lead** Apr 2025 – Oct 2025 | Gurgaon, India
>
> - Led full-stack delivery of an AI-twin platform: **React**/**TypeScript** user app, admin dashboard, and **Node.js**/**Express.js** APIs.
> - Built a **WebSocket** signalling service and **WebRTC** video chat for 2k+ live sessions, increasing session duration ~40%.
> - Built a **RAG** pipeline in **Python** with **FastAPI** and **LangChain** on **PostgreSQL** (pgvector), grounding each AI twin in its own knowledge base and cutting response latency ~25%.
> - Standardized 5+ product lines with **WCAG** (Lighthouse ~70 to 95+) and **GitHub Actions** CI/CD; mentored 10–15 engineers.
>
> **Senior IT Associate** Apr 2023 – Mar 2025 | Gurgaon, India
>
> - Built investor dashboards for a fintech platform with charts and data tables in **React**, **Tailwind CSS**, **Redux**, and **Zustand**.
> - Developed REST endpoints in **Node.js**/**Express.js** with **MongoDB** and **JWT** authentication for dashboard and user data.
> - Re-engineered a dual-level admin panel with **role-based access control**, cutting role-related errors ~40%.
>
> **IT Associate** Aug 2022 – Mar 2023 | Gurgaon, India
>
> - Launched a cross-platform **Electron** communication app with AES-256 encryption, adopted by 1.5k+ daily users.
> - Built 15+ reusable **Next.js** components for a medical e-commerce platform, boosting retention ~25% via performance tuning.

Frontend Developer (Intern), *BinCraft Technologies Pvt. Ltd.* Mar 2021 – Jan 2022 | Remote

- Built 10+ admin dashboards in **React**, **Material UI**, and **Redux** for ~500 users.
- Refactored 6+ forms and 50k+ row data grids into reusable components, cutting duplicate code ~40%.

Web Developer (Freelance), *Gorilla Graphics & Advertisements* Mar 2018 – Feb 2021 | Raipur, India

- Built 50+ responsive websites in **JavaScript**, **HTML**, and **CSS**, raising PageSpeed scores from ~70 to 85+ with SEO and lazy loading.

EDUCATION

B.E., Computer Science & Engineering Jul 2014 – May 2018 | Ambikapur, India
Vishwavidyalaya Engineering College, Ambikapur

SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), Python, SQL
- **Frontend:** React, Next.js, Svelte, Tailwind CSS, Redux, Zustand, TanStack Query, Micro-frontends, WCAG
- **Backend:** Node.js, Express.js, FastAPI, REST APIs, JWT Authentication, WebSockets, WebRTC, NATS
- **Databases & DevOps:** PostgreSQL, MongoDB, pgvector, GitHub Actions, CI/CD
- **AI & Agentic:** LangChain, RAG Pipelines, Vector Search, Prompt Engineering, AI Agents, MCP Servers, Claude Code, Cursor
